during an Aug. 30, 2018, inspection of the company’s Phoenix warehouse.

Under federal law, companies must provide formulation and production data to EPA in registering a pesticide product. This ensures the efficacy and integrity of products for consumers. All Clear 3-in. Jumbo Chlorinating Tablets is registered with EPA. The registered product is made in the U.S. Its formula and data demonstrating its effectiveness have been evaluated by the EPA. However, Pool Water Products was selling and distributing an unregistered version of the product made in China that has not been evaluated by EPA. Consumers who purchased All Clear 3-in. Jumbo Chlorinating Tablets manufactured in China should contact their local waste management authorities for advice on proper disposal.
