Docket No. **CAA-04-2025-0311(b)**

CONSENT AGREEMENT

I. NATURE OF ACTION

1. This is an administrative penalty assessment proceeding brought under Section 113(d) of the Clean Air Act ("CAA" or the "Act"), 42 U.S.C. § 7413(d), and Sections 22.13(b) and 22.18 of the Consolidated Rules of Practice Governing the Administrative Assessment of Civil Penalties and the Revocation/Termination or Suspension of Permits (Consolidated Rules), as codified at Title 40 of the Code of Federal Regulations (C.F.R.), Part 22.
2. This Consent Agreement and the attached Final Order shall collectively be referred to as the CAFO.
3. Having found that settlement is consistent with the provisions and objectives of the Act and applicable regulations, the Parties have agreed to settle this action pursuant to 40 C.F.R. § 22.18 and consent to the entry of this CAFO without Respondent's admission of violation or any adjudication of any issues of law or fact herein.

II. PARTIES

4. Complainant is the Director of the Enforcement and Compliance Assurance Division, United States Environmental Protection Agency (EPA), Region 4, who has been delegated the authority on behalf of the Administrator of the EPA to enter into this CAFO pursuant to 40 C.F.R. Part 22 and Section 113(d) of the Act.
5. Respondent is **Ben E. Keith Company**, a company doing business in the State of Alabama. This proceeding pertains to Respondent's facility located at 1 Ben E. Keith Way New Brockton, Alabama 36351 (Facility).

III. GOVERNING LAW

6. Any person who violates Section 112(r) of the CAA, 42 U.S.C. § 7412(r), or rule promulgated thereunder, may be assessed a civil penalty pursuant to Section 113(d) of the Act, 42 U.S.C. §

7413(d), and 40 C.F.R. Part 19. Each day a violation continues may constitute a separate violation. Civil penalties under Section 113(d) of the Act, 42 U.S.C. § 7413(d), may be assessed by an administrative order.

7. Section 112(r) of the Act 42 U.S.C. § 7412(r), addresses the prevention of release of substances listed pursuant to Section 112(r)(3) of the Act, 42 U.S.C. § 7412(r)(3), and other extremely hazardous substances. The purpose of this section is to prevent the accidental release of extremely hazardous substances and to minimize the consequences of such releases. Pursuant to Section 112(r)(7) of the Act, 42 U.S.C. § 7412(r)(7), the EPA is authorized to promulgate regulations for accidental release prevention.
8. Pursuant to Sections 112(r)(3) and 112(r)(7) of the Act, 42 U.S.C. §§ 7412(r)(3) and 7412(r)(7), the EPA promulgated rules codified at 40 C.F.R. Part 68, Chemical Accident Prevention Provisions. These regulations are collectively referred to as the “Risk Management Program” (RMProgram) and apply to an owner or operator of a stationary source that has a threshold quantity of a regulated substance in a process. Pursuant to Sections 112(r)(3) and 112(r)(5) of the Act, 42 U.S.C. §§ 7412(r)(3) and 7412(r)(5), the list of regulated substances and threshold levels are codified at 40 C.F.R. § 68.130.
9. Pursuant to Section 112(r)(7)(B)(iii) of the Act, 42 U.S.C. § 7412(r)(7)(B)(iii), and 40 C.F.R. §§ 68.10 and 68.150, the owner or operator of a stationary source that has a regulated substance in an amount equal to or in excess of the applicable RMProgram threshold in a “process” as defined in 40 C.F.R. § 68.3, must develop an RMProgram accidental release prevention program, and submit and register a single Risk Management Plan (RMPlan) to the EPA.
10. Pursuant to 42 U.S.C. § 7413(d)(1), the EPA and the United States Department of Justice have jointly determined that this matter, although it involves alleged violations with a first alleged date of violation that occurred more than one year before the initiation of this proceeding, is appropriate for an administrative penalty assessment.

IV. FINDINGS OF FACTS

11. Respondent is the owner and/or operator of the Facility, which is a “stationary source” as that term is defined by Section 112(r)(2)(C) of the Act, 42 U.S.C. § 7412(r)(2)(C).
12. Respondent has registered an RMPlan with the EPA for its Facility and has developed an RMProgram accidental release prevention program for the Facility.
13. At its Facility:
 - (a) Respondent operates an ammonia refrigeration system.
 - (b) At all times relevant to the violations alleged in Section V of this Consent Agreement, Respondent had on-site for use, 28,000 pounds of anhydrous ammonia.
 - (c) Respondent has one RMProgram level 3 covered process, which stores or otherwise uses anhydrous ammonia in an amount exceeding its applicable threshold of 10,000 pounds.

14. On May 2, 2024, the EPA conducted an on-site inspection of the RMProgram related records and equipment for the purpose of assessing the Respondent's compliance with the RMProgram requirements and the implemented recognized and generally accepted good engineering practices (RAGAGEP) for its covered process at its Facility.

15. At the time of the inspection, EPA observed the following:

(a) The following evidence of how Respondent's process was designed and maintained:

- i. The flammable cabinet within the maintenance shop was not grounded. National Fire Protection Association (NFPA) 1, Fire Code, (2024), Section 63.3.7.6.1 states, *"Static producing equipment located in flammable gas areas shall be grounded."*
- ii. Oil drums being stored within the ammonia machinery room (AMR) lacked secondary containment in the case of a spill. NFPA 400, Hazardous Materials Code, (2022), Section 6.1.3.2 states, *"Provisions shall be made for controlling and mitigating unauthorized releases."* NFPA 400, Hazardous Materials Code, (2022), Section 6.2.1.9.1 states, *"Buildings, or portions thereof, required to comply with Protection Level 1 through Protection Level 4 shall be provided with spill control and secondary containment in accordance with 6.2.1.9.2 and 6.2.1.9.3, except for outdoor storage on containment pallets complying with 6.2.7.3.3."* NFPA 30, Flammable and Combustible Liquids Code, (2024), Sections 9.13.1 and 12.13.1 state, *"Where the maximum allowable quantity (MAQ) is exceeded, spill control shall be required in accordance with 6.12.2."*
- iii. The diesel-fired emergency generator with fuel tanks stationed in the Facility parking lot was not labeled with an NFPA diamond or another approved system. NFPA 30, Flammable and Combustible Liquids Code, (2024), Section 21.7.2.1 states, *"A sign or marking that meets the requirements of NFPA 704 or another approved system shall be applied to storage tanks containing ignitable (flammable or combustible) liquids. The marking shall be located where it can be seen, such as on the side of the tank, the shoulder of an accessway or walkway to the tank or tanks, or on the piping outside of the diked area. If more than one tank is involved, the markings shall be so located that each tank can be identified."* NFPA 704, Standard System for the Identification of the Hazards of Materials for Emergency Response (2022), Section 9.1 states, *"Symbol Arrangement. One of the systems delineated in Figure 9.1(a), Figure 9.1(b), or Figure 9.1(c) shall be used for the implementation of this standard."*
- iv. Anhydrous ammonia piping within the AU-10 penthouse was prone to swaying and vibration due to insufficient support. American National Standards

Institute/International Institute of Ammonia Refrigeration (ANSI/IIAR-2), Standard for Design of Safe Closed-Circuit Ammonia Refrigeration Systems, (2021), Section 5.11.5 states, *“Supports and foundations shall be designed to prevent vibration or movement that causes damage, an unsafe condition, or loss of function to the equipment, connected refrigeration system components, or the building structure.”*

- v. No signage with emergency facility contact information in the event of an ammonia alarm or ammonia release was posted near either entrance to the AMR or anywhere in the vicinity of the AMR. ANSI/IIAR-2, Standard for Design of Safe Closed-Circuit Ammonia Refrigeration Systems, (2021), Section 5.14.1.1 states, *“Signage or schematic drawings for each system of more than 22 pounds of ammonia shall be posted at a location that is readily accessible to trained refrigeration staff and trained emergency responders. Schematic drawings or signage shall include the following: 1. Instructions with details and steps for shutting down the system in an emergency; 2. The contact information for whom to contact in an emergency; 3. Maximum intended inventory of ammonia in the system; 4. Type of refrigerant compressor oil(s); 5. Lowside and highside design pressures.”*
- vi. The Oil Still OS-1 did not have a rigid oil return or transfer system, a vessel equipped with a shut-off valve in series with a self-closing shut-off valve, or a valve and piping assembly at the draining point where oil is removed from the system. ANSI/IIAR-2, Standard for Design of Safe Closed-Circuit Ammonia Refrigeration Systems (2021), Section 5.9.3 states, *“Oil removal shall be accomplished by one or more of the following: 1) A rigid oil return or transfer system. 2) A vessel equipped with a shut-off valve in series with a self-closing shut-off valve. All piping to atmosphere for oil draining shall be designed to be capped when not in use. 3) A valve and piping assembly at the draining point where oil is removed from the system. At a minimum, a shut-off valve in a series with self-closing shut-off valve is required. All piping to atmosphere for oil draining shall be designed to be capped when not in use.”*
- vii. Gasoline powered equipment was being stored inside the AMR outside of approved fire rated storage containers. ANSI/IIAR-2, Standard for Design of Safe Closed-Circuit Ammonia Refrigeration Systems, (2021), Section 6.4 states, *“Combustible materials or flammable liquids shall not be stored in machinery rooms outside of approved fire rated storage containers.”*

- (b) Of the 45 recommendations from the March 2021 process hazard analysis (PHA), only 5 had been documented as completed at the time of the inspection. Although some of the other PHA recommendations may have been completed, they were not being tracked.

On January 14, 2025, the EPA issued to Respondent a Notice of Potential Violation (“NOPV”), providing notice that the EPA found that Respondent potentially committed the alleged violations described in Section V of this Consent Agreement and providing Respondent an opportunity to confer with the EPA. On May 13, 2025, representatives of Respondent and the EPA held a meeting to discuss the NOPV.

Pursuant to 42 U.S.C. § 7413(d)(5), 31 U.S.C. § 3717, 31 C.F.R. § 901.9, and 40 C.F.R. § 13.11, if Respondent fails to timely pay any portion of the Assessed Penalty per this CAFO, the entire unpaid balance of the Assessed Penalty and all accrued interest shall become immediately due and owing, and EPA is authorized to recover the following amounts.

- (a) Interest. Interest begins to accrue from the Effective Date. If the Assessed Penalty is paid in full within thirty (30) calendar days, interest accrued is waived. If the Assessed Penalty is not paid in full within thirty (30) calendar days, interest will continue to accrue until

any unpaid portion of the Assessed Penalty as well as any interest, penalties, and other charges are paid in full. Per 42 U.S.C. § 7413(d)(5), interest will be assessed pursuant to 26 U.S.C. § 6621(a)(2), that is the IRS standard underpayment rate, equal to the Federal short-term rate plus 3 percentage points.

28. Tax Treatment of Penalties. Penalties, interest, and other charges paid pursuant to this CAFO shall not be deductible for purposes of federal taxes.

29. Pursuant to 26 U.S.C. § 6050X and 26 C.F.R. § 1.6050X-1, EPA is required to annually send to the Internal Revenue Service (“IRS”) a completed IRS Form 1098-F (“Fines, Penalties, and Other Amounts”) with respect to any court order or settlement agreement (including administrative settlements) that require a payor to pay an aggregate amount that EPA reasonably believes will be equal to, or in excess of, \$50,000 for the payor’s violation of any law or the investigation or inquiry into the payor’s potential violation of any law, including amounts paid for “restitution or remediation of property” or to come “into compliance with a law.” EPA is further required to furnish a written statement, which provides the same information provided to the IRS, to each payor (i.e., a copy of IRS Form 1098-F). Respondent’s failure to comply with providing IRS Form W-9 or Tax Identification Number (“TIN”), as described below, may subject Respondent to a penalty, per 26 U.S.C. § 6723, 26 U.S.C. § 6724(d)(3), and 26 C.F.R. § 301.6723-1. To provide EPA with sufficient information to enable it to fulfill these obligations, Respondent shall complete the following actions as applicable:

EPA recommends encrypting IRS Form W-9 email correspondence.
- d. In the event that Respondent has certified in its completed IRS Form W-9 that it does not yet have a TIN but has applied for a TIN, Respondent shall provide EPA’s Cincinnati Finance Division with Respondent’s TIN, via email, within five (5) days of Respondent’s receipt of a TIN issued by the IRS.

VIII. EFFECT OF CAFO

30. In accordance with 40 C.F.R. § 22.18(c), Respondent’s full compliance with this CAFO shall only resolve Respondent’s liability for federal civil penalties for the violations and facts specifically alleged above.
31. Full payment of the civil penalty, as provided in Section VII (Terms of Payment), shall satisfy the requirements of this CAFO; but, shall not in any case affect the right of EPA or the United States to pursue appropriate injunctive or other equitable relief or criminal sanctions for any violations of law. 40 C.F.R. § 22.18(c).

32. Any violation of this CAFO may result in a civil judicial action for civil penalties as provided in Section 113(b) of the Act, 42 U.S.C. § 7413(b), as well as criminal sanctions as provided in Section 113(c) of the Act, 42 U.S.C. § 7413(c). EPA may use any information submitted under this CAFO in an administrative, civil judicial, or criminal action.
33. Nothing in this CAFO shall relieve Respondent of the duty to comply with all applicable provisions of the Act and other federal, state, or local laws or statutes, nor shall it restrict EPA's authority to seek compliance with any applicable laws or regulations, nor shall it be construed to be a ruling on, or determination of, any issue related to any federal, state, or local permit, except as expressly provided herein.
34. Nothing herein shall be construed to limit the power of EPA to undertake any action against Respondent or any person in response to conditions that may present an imminent and substantial endangerment as provided under the Act.
35. The terms, conditions, and compliance requirements of this CAFO may not be modified or amended except upon the written agreement of both Parties, and approval of the Regional Judicial Officer.
36. The provisions of this CAFO shall apply to and be binding upon Respondent and its successors and assigns. Respondent shall direct its officers, directors, employees, agents, trustees, and authorized representatives to comply with the provisions of this CAFO.
37. Any change in the legal status of the Respondent, or change in ownership, partnership, corporate or legal status relating to the Facility, will not in any way alter Respondent's obligations and responsibilities under this CAFO.
38. By signing this Consent Agreement, Respondent acknowledges that this CAFO will be available to the public and agrees that this CAFO does not contain any confidential business information or personally identifiable information.
39. By signing this Consent Agreement, the Complainant and the undersigned representative of Respondent each certify that he or she is fully authorized to execute and enter into the terms and conditions of this CAFO and has the legal capacity to bind the party he or she represents to this CAFO.
40. By signing this Consent Agreement, both Parties agree that each party's obligations under this CAFO constitute sufficient consideration for the other party's obligations.
41. By signing this Consent Agreement, Respondent certifies that the information it has supplied concerning this matter was at the time of submission, and continues to be, true, accurate, and complete for each such submission, response, and statement. Respondent acknowledges that there are significant penalties for submitting false or misleading information, including the possibility of fines and imprisonment for knowing submission of such information, under 18 U.S.C. § 1001.

42. EPA also reserves the right to revoke this CAFO and settlement penalty if and to the extent that EPA finds, after signing this CAFO, that any information provided by Respondent was materially false or inaccurate at the time such information was provided to EPA. If such false or inaccurate material was provided, EPA reserves the right to assess and collect any and all civil penalties for any violation described herein. EPA shall give Respondent notice of its intent to revoke, which shall not be effective until received by Respondent in writing.
43. It is the intent of the Parties that the provisions of this CAFO are severable. If any provision or authority of this CAFO or the application of this CAFO to any party or circumstances is held by any judicial or administrative authority to be invalid or unenforceable, the application of such provisions to other parties or circumstances and the remainder of the CAFO shall remain in force and shall not be affected thereby.
44. Unless specifically stated otherwise in this CAFO, each party shall bear its own attorney's fees, costs, and disbursements incurred in this proceeding.

IX. EFFECTIVE DATE

45. This CAFO shall become effective after execution of the Final Order by the Regional Judicial Officer, on the date of filing with the Hearing Clerk.
